

PC DRAGONFRAME BLUETOOTH CONTROLLER SETUP INSTRUCTIONS

1. Find the **Bluetooth** icon in the toolbar, right click it, and choose "Add a Bluetooth Device". This will open "Manage Bluetooth Devices".
2. On the back of the controller, slide the **ON/OFF** switch to **ON**:

3. Press the **CONN.** button with something small, like a pencil tip:

The blue light on the front of the keypad should begin flashing, and the keypad should appear in the Bluetooth device list.

4. Click **Bluetooth Keypad**, and then click the **Pair** button.
5. On the keypad, enter the number shown on the screen, followed by **enter** (on the keypad).

We have more help in the Bluetooth section of our FAQ:
